Amendments to the Abstract:

Please replace the paragraph of the Abstract beginning on page 41, line 5, with the following rewritten paragraph (deleted text being struck through and added text being underlined):

A system and method for efficient control and capture of dynamic database content for rapidly providing a user with a highly relevant collection of documents related to a query. The system and method for efficient control and capture of dynamic database content includes a computer system with [[[a]]] storage ~~means~~ for facilitating the retention and recall of dynamic database content and a communications ~~means~~ module for facilitating bi-directional communication of the computer system with local or distributed networks; an executory module operationally coupled to the computer system for controlling the storage ~~means~~ and the communications ~~means~~ module as well as directing the system for the efficient control and capture of dynamic database content to a plurality of pre-selected Internet sites; and a capture module which is in communication with the executory module and facilitates selection of the plurality of Internet sites associated with a query submitted by a user of the system.
